Frosted Glass

Fuji brings life and light into the modern kitchen with white ultra gloss fronts.

Doors and drawer fronts are manufactured from a flat 18mm MDF core (with soft bevelled edges) covered with a smooth PVC foil and finished with an ultra white high-gloss lacquer.

Light pelmet and cornice are available in a complementary high gloss white finish.

Standard glazed doors are High Gloss White frames with a central aperture fitted with frosted glass. Optional brushed aluminium/frosted glass doors are also available.
